Brush your teeth, brush your teeth,  
Brush your teeth, brush your teeth.  
Every morning, every night,  
Brush your teeth to keep them white.

Brush your teeth, brush your teeth,  
Brush your teeth, brush your teeth.  
Back and forth and straight across,  
Don't forget to use that floss.

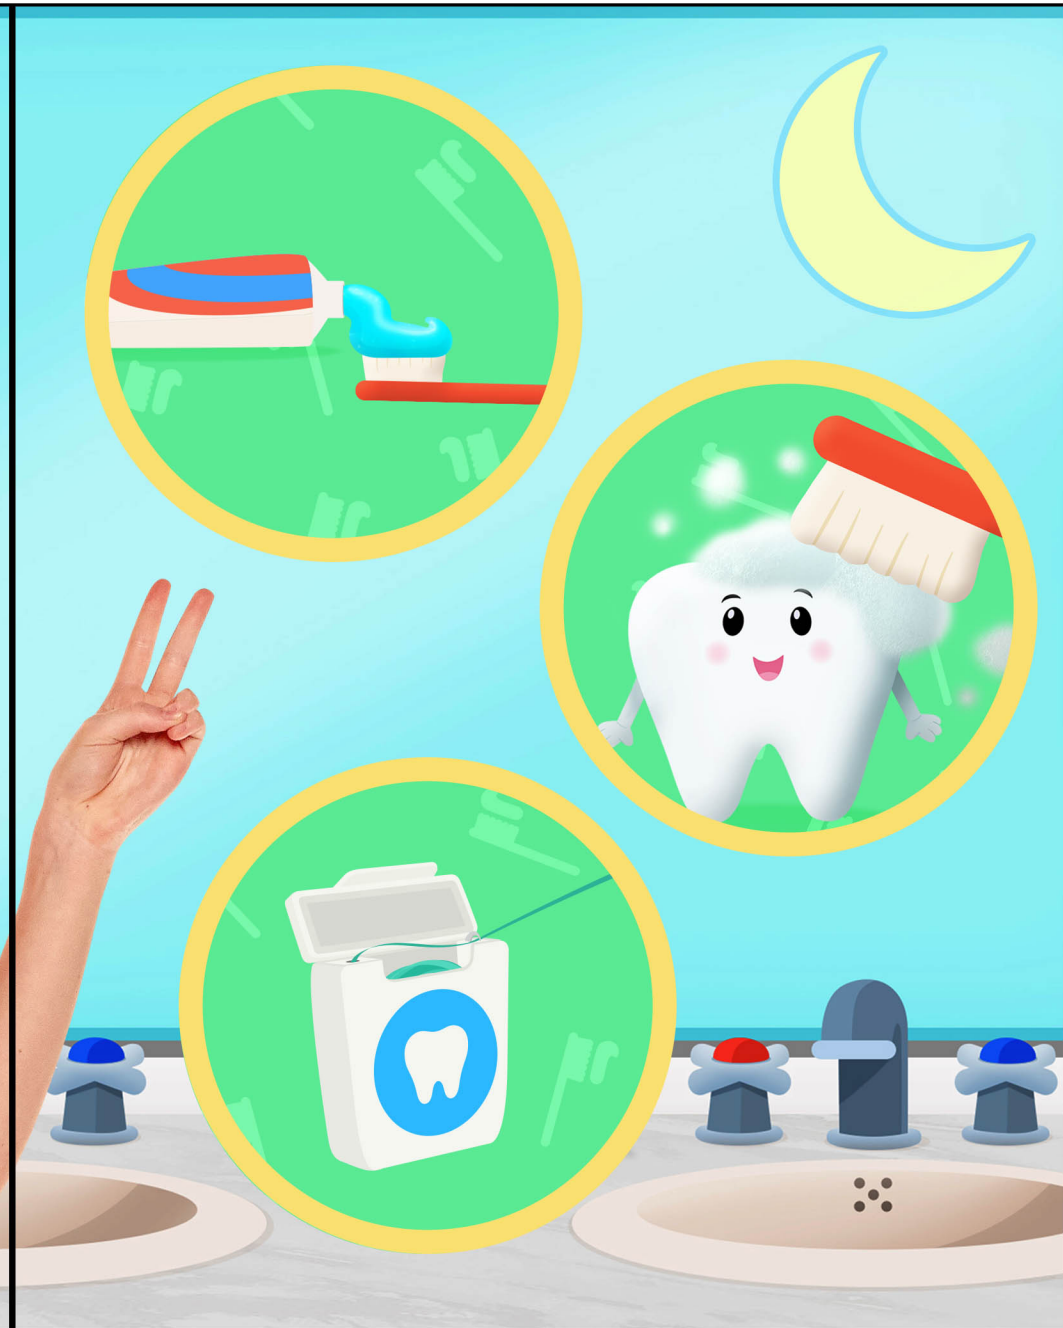

Up and down and all around,  
When you brush, you hear this sound.

Brush your teeth.

Twice a day, get it done.  
Put a little toothpaste on.

Brush in the back, brush up front,  
Some folks even brush their tongue.

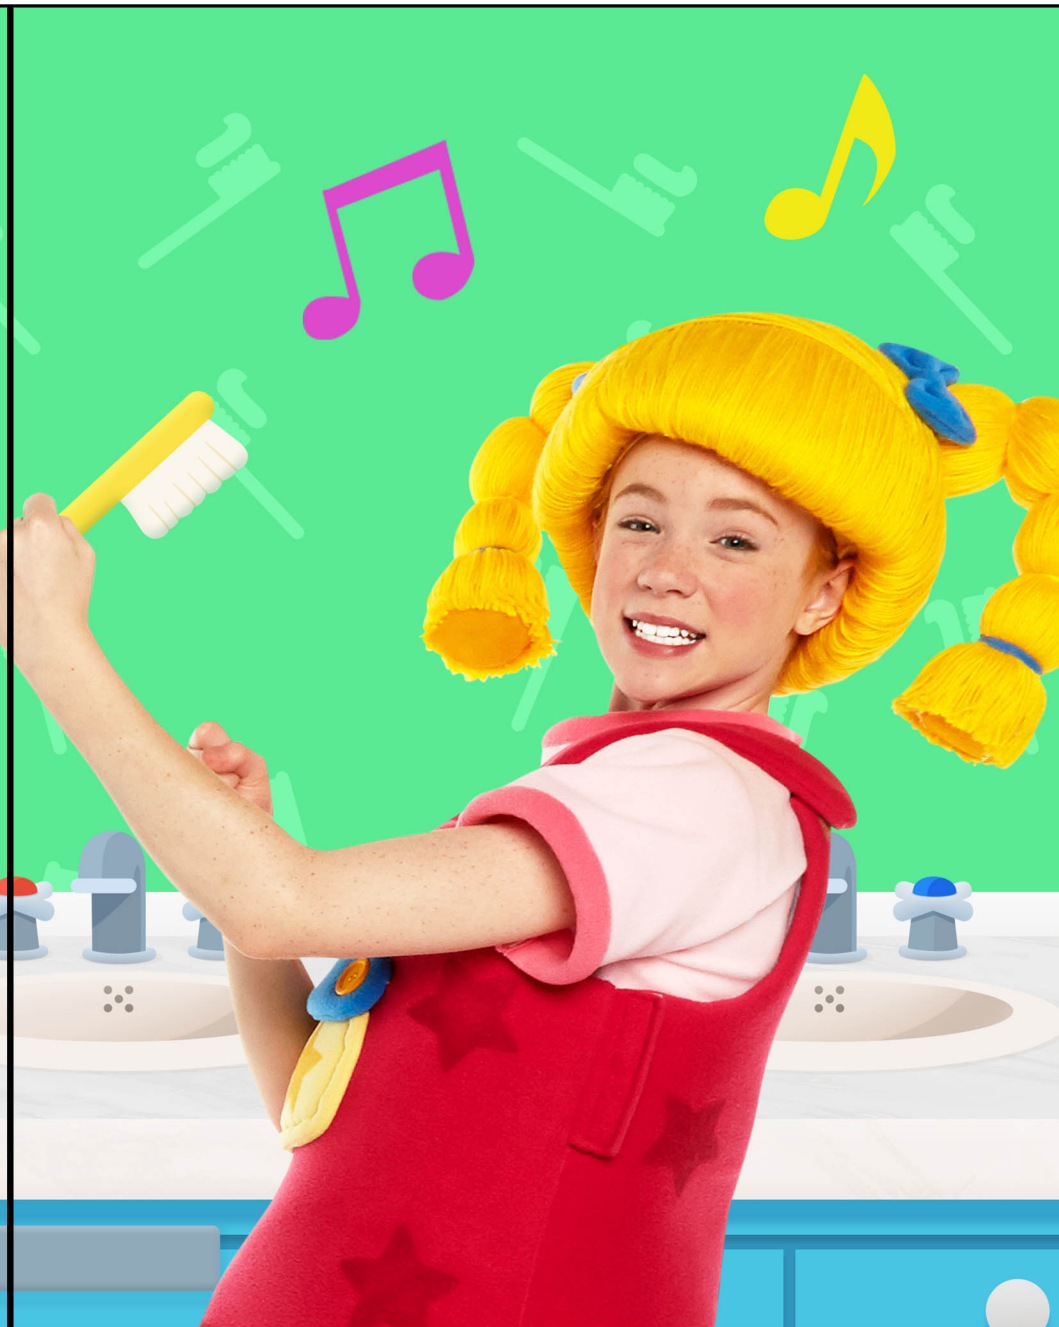

**Brush your teeth, brush your teeth,  
Brush your teeth, brush your teeth.  
Every morning, every night,  
Brush your teeth to keep them white.**

**Brush your teeth, brush your teeth,  
Brush your teeth, brush your teeth.  
Brush and floss and you will see,  
You will have no cavities.**

Up and down and all around,  
When you brush, you hear this sound.

Brush your teeth.

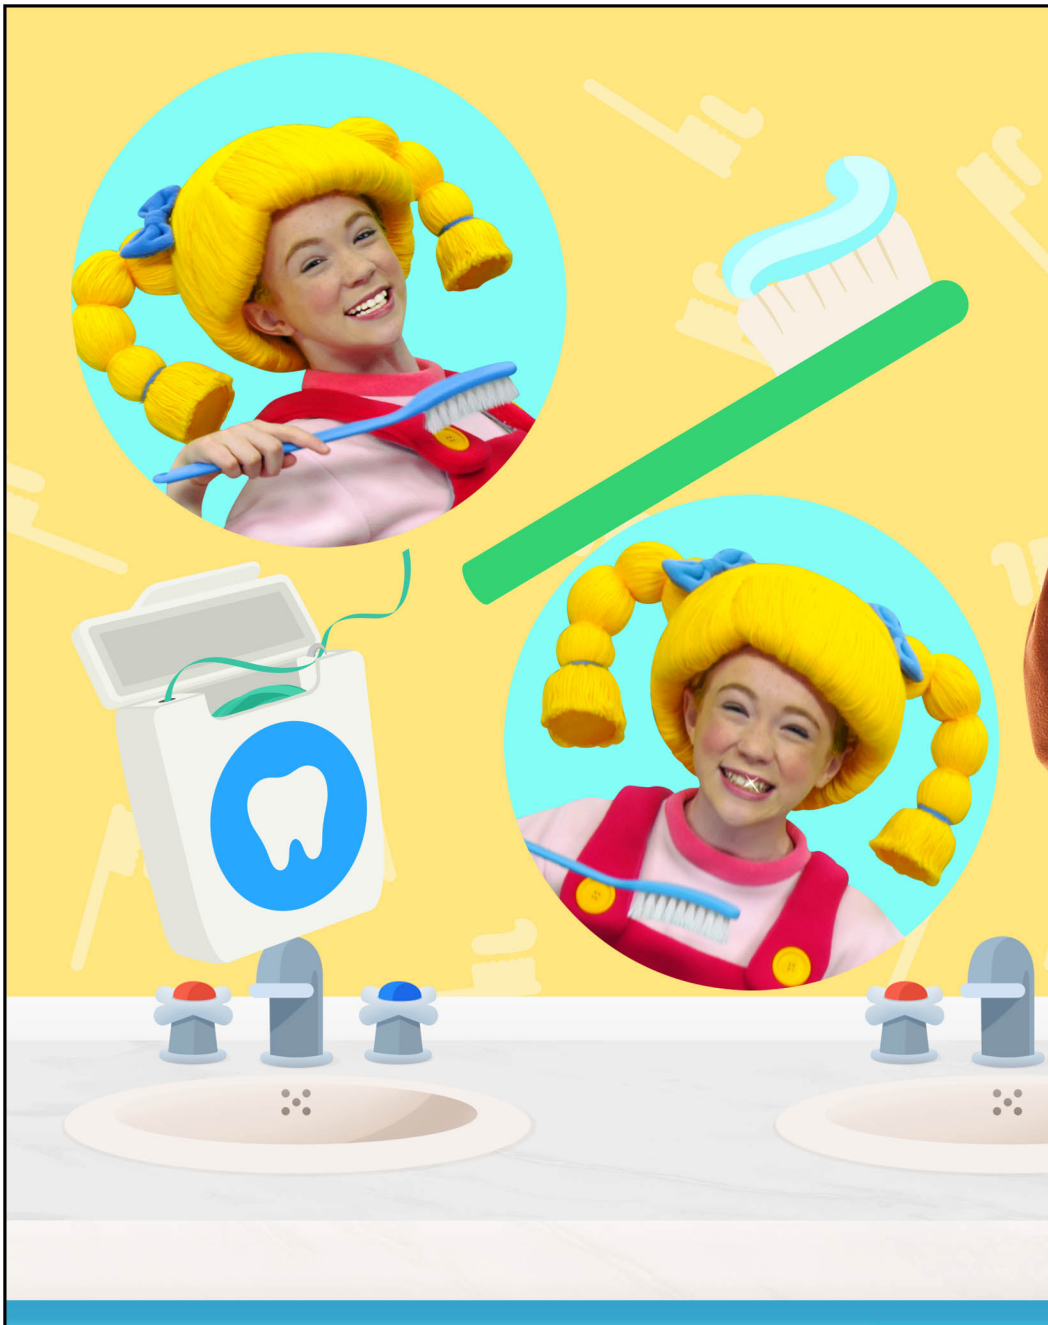

Twice a day, get it done,  
Put a little toothpaste on.  
Brush in the back, brush up front,  
Some folks even brush their tongue.

Brush your teeth.

**Brush your teeth, brush your teeth,  
Brush your teeth, brush your teeth.  
Every morning, every night,  
Brush your teeth to keep them white.**

**Brush your teeth, brush your teeth,  
Brush your teeth, brush your teeth.  
Back and forth and straight across,  
Don't forget to use that floss.**

Up and down and all around,  
When you brush, you hear this sound.

Brush your teeth. Brush your teeth.
