

Twelve months in a year,
Twelve months, count them here.
Sing with me this year-long song.
Say their names and count along.

Twelve months in a year,
Twelve months, count them here.
Sing with me this year-long song.
Say their names and count along.

January is number one.

February is number two.

March is number three.

Say the months and count with me.

April is number four.

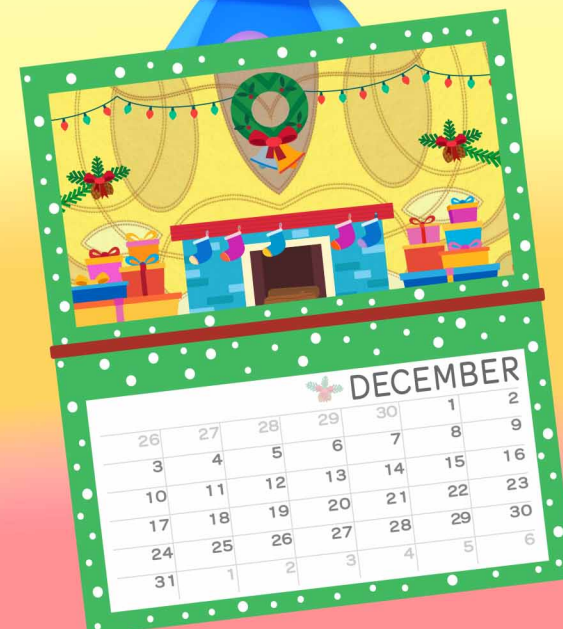

May is number five.

June is number six.

Half the months are in the mix.

Twelve months in a year,
Twelve months, count them here.
Sing with me this year-long song.
Say their names and count along.

Twelve months in a year,
Twelve months, count them here.
Sing with me this year-long song.
Say their names and count along.

July is number seven.

August is number eight.

September is number nine.

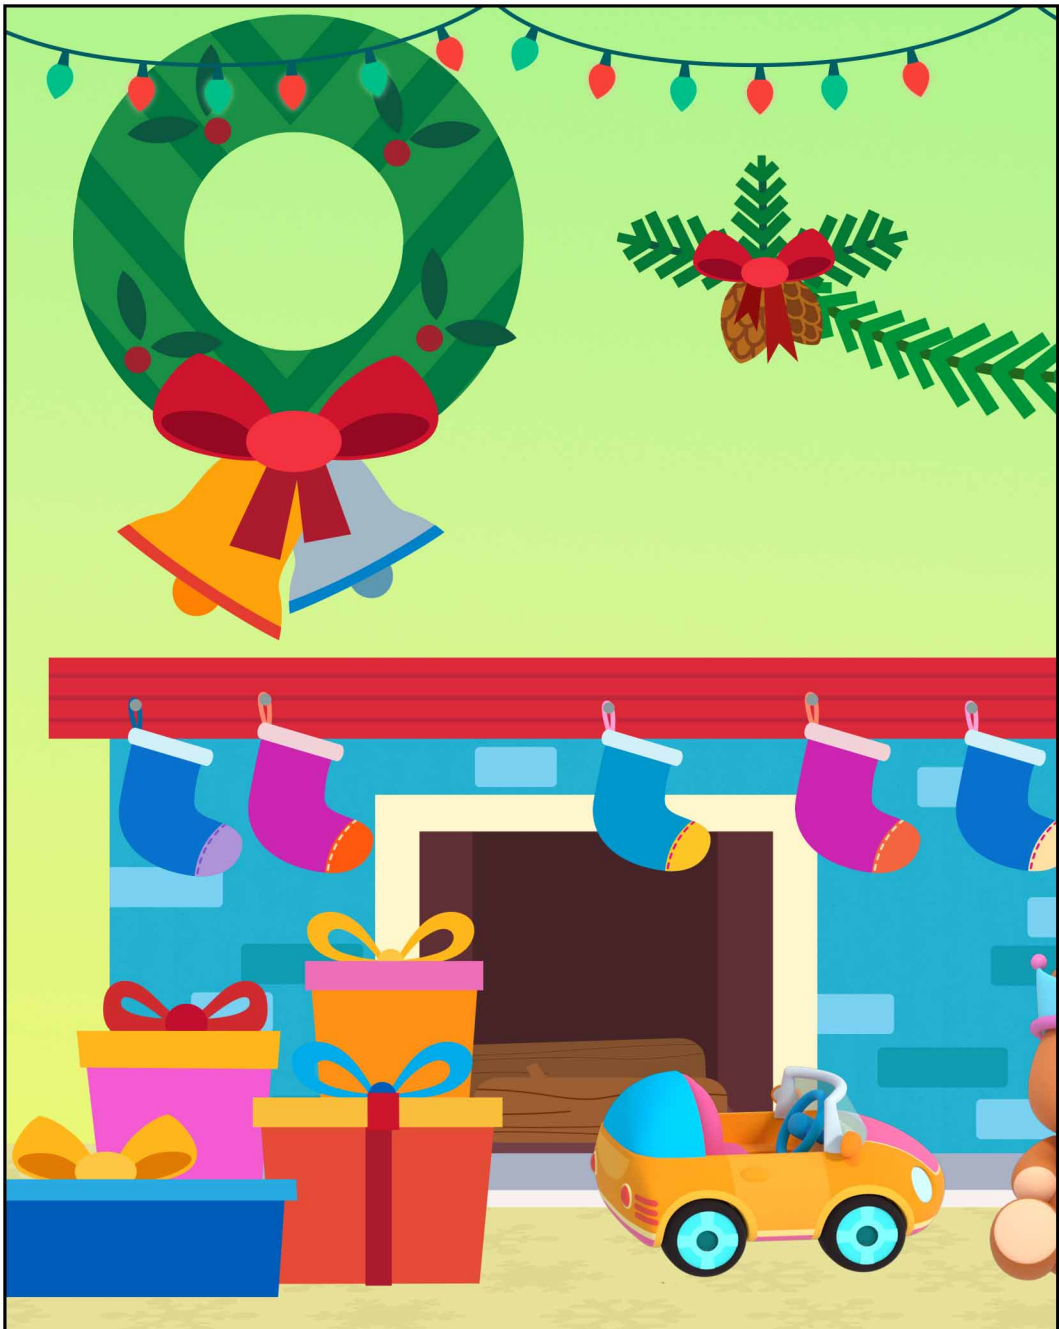

Way to go, you're doing fine.

October is number ten.

November is eleven.

December is number twelve.

We sang the months all by ourselves.

Twelve months in a year,
Twelve months, count them here.
Sing with me this year-long song.
Say their names and count along.

Twelve months in a year,
Twelve months, count them here.
Sing with me this year-long song.
Say their names and count along.

The twelve months, the twelve months,
The twelve months, the twelve months.
